"He Won't Die"

Of consumption is a remark often made of a fleshy man. The remark expresses the popular recognition of the fact that the sign of consumption is emaciation, loss of flesh. On the other hand, a gain in flesh is a sure sign that wasting diseases are being cured.

Emaciated people with obstinate coughs, bleeding lungs, night-sweats and weakness, have been perfectly cured by the use of Dr. Pierce's Golden Medical Discovery. The several steps of the cure were recorded in ounces and pounds of increasing weight. When there is gain in flesh the wasting disease is being surely cured.

Mr. W. H. Whitmore, of Artois, Rockingham Co., Va., writes: "Our son contracted a deep cold about the first of July, 1899, and had a terrible cough. We called a doctor and he pronounced it irritation of the bronchial tubes, with asthmatic trouble, and he informed me that my son was liable to die at any time. He told me that if we could keep the bronchial tubes open he might cure him; but after treating him several weeks and my son growing worse all the time, I concluded to try Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' I had seen several almost miraculous cures brought about by the use of these medicines, and of course I had wonderful faith in them. He used three bottles of 'Golden Medical Discovery' at home and one oval of the 'Pellets,' and was then well enough to go to West Virginia, taking a supply with him. I am just in receipt of a letter from him from which I quote: 'I am well and hearty and getting very fleshy.'"

Senator McCreary Given An Ovation.

If there was ever any doubt about the personal popularity of the Hon. James B. McCreary in Washington it was dispelled by the ovation given the new Kentucky Senator when he took the oath of office in the Senate chamber. Escorted by the Hon. J. C. S. Blackburn, now the senior Kentucky Senator, he walked up to the vice president's desk, where the oath of office was administered, while there was round after round of applause from the galleries, which contained many Kentuckians and friends and admirers of the Senator residing in Washington. With the exception of the reception tendered Senator Arthur P. Gorman, of Maryland, who now leads the democratic forces in the Senate, Mr. McCreary received more applause than any other new Senator. Senator McCreary has been allotted by the sergeant-at-arms, a very desirable seat, immediately behind that occupied by Senator Gorman and between Senator Clay, of Georgia, and Clark, of Montana.

Senator McCreary's desk was covered with handsome floral decorations. There was a huge bunch of American Beauty roses from "Uncolored Fiscal Court and People of Madison county, Kentucky," where the Senator lives. Seventeen Kentuckians, residents of Washington, presented the Senator with a magnificent wreath seven feet high, interlaced with American beauty roses, wrapped with a red ribbon, upon which was printed: "Kentucky, United We Stand, Divided We Fall." After the signatures of the donors were written: "To Senator James B. McCreary, a Real Friend, a Real Man, a Real Democrat"—Washington Dispatch.

Alfred Knapp's attorneys will ask that an inquest into his mental condition be held, insanity being to be their plea.

The motto of that floral tribute "Senator James B. McCreary, a Real Friend, a Real Man, a Real Democrat," leaves nothing to be said. It sizes up the new Kentucky Senator to a T.—Louisville Times.

Col. Roger D. Williams has received instructions to select 200 men from the Second Regiment, Kentucky State Guard, to accompany Governor Beckham to St. Louis, and he will select them according to the merit system.

While there Mr. Owens had their No. 1 well shot, resulting in fully doubling its capacity. He contracted for drilling No. 4 and five others and work will begin this week and be pushed night and day until completed. The gusher struck by the River-ton Oil Co. last week is the best producer in Kentucky. Mr. Owens was there when the strike was made and says that no excitement has yet been produced in the oil fields to equal this and that fully 1,000 barrels of oil was lost before getting it fully under control. This well is in sight of the Beaver Creek wells and the oil on about the same level and in the same sand. It is now conceded by all experts in the territory that Beaver Creek is the most desirable field yet developed in Kentucky, first, because there is a smaller per cent. of dry holes, second, the high grade of oil obtained in the Beaver Creek sand, third, Beaver Creek wells continue to flow and in 10 years will be better producers than they are to day.

How often you hear it remarked: "It's only a cold," and a few days later learn that the man is on his back with pneumonia. It always cures and is pleasant to take. For sale by Craig & Hocker.

Woner, Peter Straub, John Underwood, W. B. Underwood, Grimes Beazley and John H. Engleman, Sr. and Jr. The gentlemen were splendidly treated and they enjoyed the trip greatly.

GOOD GUESSER—Mr. Frank Lee, G. L. Penny's gentlemanly prescription clerk, is a good guesser. The American Tobacco Co. offered a prize of seven boxes of cigars and \$10 in cash to the one guessing nearest the number of a certain brand of cigars that company would sell in a single month. MOHLEY.—Mr. Terry Mohley died of small-pox at his home near Mt. Salem Sunday. A wife and child survive him. Mr. Mohley was a substantial, good citizen and a clever gentleman, and his taking off is the source of much regret. It is sincerely hoped that his bereaved wife and little child will not be further afflicted by the loathsome disease. Two Negroes who waited on Mr. Mohley are said to have broken out with small-pox.

HIGH PRICES.—Mr. Isaac Hamilton showed us a bill Saturday he bought of James Collings, a wholesale grocer of Louisville, in July of 1894. Some of the items on it struck us very forcibly because of the great reduction in the price of such staples since then. Sugar is charged at 28c and coffee at 60c per pound. What would our people think if they had to pay such prices to-day? "After coffee" would be a delicacy sure enough if such prices were in vogue to-day.

SOME smart Alas rolled two barrels of coal oil belonging to Higgins & McKinney into the middle of the street the other night. The bung in one of the barrels got loose while the boys were having their fun and most of the oil was lost. Messrs. Higgins & McKinney are out by the performance about \$5, which is nothing to give up for the entertainment of the youngsters who make night hideous and work very little during the day. A night policeman would put a stop to such devilry. Stanford can afford one and she ought to have one.

COMING—A. K. Hawkes, the famous Atlanta optician, direct from the home office of this great Optical House, or one of his practical opticians, will remain at the store of his agent, W. A. Reynolds, Junction City, for five days only, beginning March 10th. This will give the citizens of Boyle county and vicinity a rare opportunity of having their eyesight tested free by one of the most renowned as well as reliable opticians in the United States.

Mr. Hawkes has all the modern appliances for the scientific adjustment of spectacles and eye glasses to the eye. There is no optician in the United States who enjoys the confidence of the people more than Mr. Hawkes. His name is a familiar word throughout a section of the country inhabited by over 25,000,000 of people. Mr. Hawkes has probably fitted glasses to the eyes of more people of national and international fame than any other optician living. His wonderful success is due to his superior grade of glasses, and to the confidence the people have in his ability as a practical optician. This firm was established in 1870, nearly 30 years ago. Call early as he will positively remain but five days, as he has other engagements for later dates. Caution.—These famous glasses are never peddled.

Wakeful Children.

For a long time the two-year-old child of P. L. McPherson, 59 N. 10th St., Harrisburg, Pa., would sleep but two or three hours in the early part of the night which made it very hard for her parents. Her mother concluded that the child had stomach trouble, and gave her half of one of Chamberlain's Stomach and Liver Tablets, which quieted her stomach and she slept the whole night through. Two boxes of these Tablets have effected a permanent cure and she is now well and strong. For sale by Craig & Hocker.

NIGGERS IN THE WHITE HOUSE.

(Six months hence.)
Things at the White House
Looking mighty curious;
Niggers running every where,
White people furious.
Niggers on the front porch,
Niggers on the gable,
Niggers in the dining room,
Niggers at the table.
Niggers in the sitting room,
Making all the talk;
Niggers in the ball room,
Doing cake walk.
Niggers in the East Room,
Make a mighty throng;
Niggers in the music room,
Singing a coon song.
Niggers in the hallway
Taking off their wraps.
Niggers in the billiard room,
Shooting game of craps.
Niggers in the store room,
Packing away their plunder,
Niggers in the bed room,
Snoring like thunder.
Not a room in White House,
Without Niggers many;
Baby in nursery
A Nigger pickanlony.
Niggers on the stairway,
With very much salety;
Niggers in the Blue Room,
Assembled for society.
Niggers in the front yard,
Niggers in the back;
Niggers come in omnibus,
Niggers come in hack.
On they go to Washington,
With a mighty rush;
Forty thousand Niggers,
Getting in the push.
There's trouble in the White House
More than you can tell;
Yelling like wild men,
Niggers raising hell.
I see a way to settle it,
Just as clear as water—
Let Mr. Booker Washington
Marry Teddy's daughter.
Or, if this does not overflow
Teddy's cup of joy;
Let Miss Dinah Washington
Marry Teddy's boy.
But everything is settled;
Roosevelt is dead.
Niggers in the White House
Cut off Teddy's head.

CONFUSES THE QUACK.

Once, when Attorney General Knox was a young man, he had a case to conduct against a quack doctor. It was his purpose to prove the doctor quite ignorant of medicine, and the means he adopted to do this were ingenious and effective. Getting the man on the stand, he began:
"You used, sir, on my client here, when he called you in, all the most approved and modern methods?"
"Certainly, certainly," the witness replied.
"You made all needful amputations?"
"No less than nine, sir."
"Did you decapitate the man?"
"I did."
"And you performed the Caesarian section operation?"
"To be sure."
"Now about the post mortem—did you hold the usual post mortem?"
"Of course I did. In fact I held two post mortems."
"Very good. That will do," said Mr. Knox and the young attorney had no difficulty in winning his case against the quack.
Allen county is to have a new court house to cost \$13,000.

OFFICE

Is opened here by the McKinley Mining and Smelting Co.

Wm. T. Harrison appointed special representative for bluegrass—President McKinley was once secretary of Co.

Wm. T. Harrison, formerly business manager of The Lexington Leader, has been appointed special representative for Central Kentucky of the McKinley Mining and Smelting Co. and opened an office at No. 39 E. Short.

This company has an especially interesting history. As the late President McKinley was once its secretary. Fifty thousand shares of the stock of the company as reorganized is now owned by Mrs. McKinley and her sister, Mrs. M. C. Harber, of Canton, O. While President McKinley was a young attorney at Canton he had his office over the Canton bank of that city. When the Canton Mining Co. was formed, James A. Saxton was chosen president, and Wm. McKinley, secretary. The latter time came into contact with Miss Ida Saxton, who afterward became his wife.

After a time the mines were closed down and remained so until 1901, when they were reopened by Messrs. Dix W. Smith and M. C. Harber, the latter a brother-in-law of the president. A new company was formed with a board of trustees approved by President McKinley, and Mrs. McKinley and Mrs. Harber given 50,000 shares.

It is claimed for Nevada, where these mines are located, that as a mining State it is more easy of access, has a better climate, and is freer from hardship and danger than any other mining zone in the world. It is claimed also that there is more unprospected territory and are more undeveloped mines in that State than in any other equal area anywhere. At present it costs but \$2 per ton to mine gold and \$1 per ton to mine copper. In the year 1900 and during the past year, the mines in Nevada are said to have produced over a thousand million dollars. In 1904 the estimate of value was \$897,820,728. It has doubled since 1907 and almost trebled since 1910.

In one week the assay values of the gold ores are said to have increased \$4 per ton, making an average of \$29 per ton.
The officers of the McKinley Mining and Smelting Company are: M. C. Harber, Canton, O., President; F. E. Fitch, Elmira, N. Y., Vice President; A. J. Harelline, President Warren Savings Bank, Warren, Pa., Treasurer; and Dix W. Smith, Elmira, N. Y., Secretary. Mr. Alger, the traveling manager who located the office here, was formerly a special agent of the United States government and became interested in the enterprise while acting in that capacity.

The company has decided to offer a limited amount of stock for sale in each State. As stated above Mr. W. T. Harrison has been appointed special representative for Central Kentucky. No more active or energetic agent could have been chosen. Mr. Harrison's long newspaper connection has given him a close and valuable acquaintance with the business men of Lexington, and in his new capacity he will undoubtedly prove of large value to his employers.—Lexington Herald.
